were amended to correct some minor spelling/grammar errors. Applicant elected apparatus claims 1-8 on 30 May 2006. Applicant did not provide any argument(s) to support an election with traverse and as such the election has been treated as one without traverse (and the non-elected claims 9-11 canceled to place the application in condition for allowance).

3. The following is an examiner's statement of reasons for allowance: The prior art failed to teach or suggest, in particular in the claimed environment, the piston having a recessed flange at an end thereof with the piston in the smaller bore in the housing and the flange in the larger housing bore with the recessed flange engaging the end of the mandrel and the outer race of the bearing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
